

the dtic capacity workshops for SMMEs and communities

The Regulation Branch of the Department of Trade, Industry and Competition (**the dtic**) administers the following legislation: Consumer Protection Act 2008; National Credit Act 2005; Liquor Act 2003; National Gambling Act 2004; Lotteries Act 1997 and Companies Act 2008. The branch hosts workshops to educate the public on these various pieces of legislation.

The capacity-building workshops will target enterprises in areas outside the five main metros, focusing on SMMEs, women and youth-empowered businesses, and community outreach programmes in 10 districts. SMMEs that already receive support from **the dtic** (such as funding and procurement contracts) are encouraged to participate in the outreach workshops.

Interested community members, businesses and organisations who wish to be educated on the abovementioned legislation through the outreach programme can contact:
