#### REPLY:

In May 2021, I set out in the Budget Vote speech details of key policies on trade and industrial development to be publicly released. These were subsequently done, and covered both trade and industrial policy matters, and can be obtained from the relevant government gazettes. A number of masterplans were developed and key trade measures were adopted.

In addition, I will provide the Honourable Member with a list of trade and industrial policies tabled or made public prior to 2021, and will make it available as soon as the process of compiling these are completed.
