Value-creating business model

SABS

The SABS relies on various relationships and resources, also referred to as the six capitals, to create value. The inputs are required to deliver the strategy and generate value for all stakeholders. The SABS carefully considers the trade-offs between the capitals, aiming to maximise positive outputs and outcomes, and limit any negative impacts

Performance Against Approved Annual Performance Plan

The SABS achieved 6 of the 11 targets with two indicators being missed by 1% and 0,1% respectively.

Targets that were not met are as indicated below:

- **SANS supporting re-imagined industrial priority sectors.**
Target was 80% and 79% (42/53 indicators) SANS were completed.
- **Customer Satisfaction Rate.**
The target for Customer Satisfaction Rate is 75% and the SABS achieved 70%.
The Customer Satisfaction Survey was mainly impacted by unfavourable feedback from the Laboratory Services Division with the lowest score of 56%.
- **Employee Engagement Rate.**
The target is 3 out of 5. The organisation took a decision not to conduct the survey until the S189 process and the migration to the new structure is complete.
- **The SABS is expected to support the economic participation of designated groupings namely, women, youth, and persons with disabilities, in the industrial economy**
The SABS contributes to the initiative by appointing designated people to the SABS (internal focus).

<p>“25. The material findings on compliance with specific matters in key legislation are as follows:</p>	
<p>Annual financial statements</p>	
<p>27. The consolidated and separate financial statements submitted for auditing were not prepared in accordance with the prescribed financial reporting framework and or supported by full and proper accounting records as required by section 55(1)(a) and (b) of the PFMA.</p>	<ul style="list-style-type: none">• SABS Group and SABS entity obtained an unqualified audit opinion for the financial years 31 March 2021/22.• Whilst the financial statements submitted for audit contained misstatements (paragraph 27), these misstatements were corrected, and the audited financial misstatements no longer contained material misstatements.
<p>28. Material misstatements of non-current assets and disclosure items identified by the auditors in the submitted consolidated and separate financial statements were corrected and the supporting records were provided subsequently, resulting in the consolidated and separate financial statements receiving an unqualified audit opinion.”</p>	<ul style="list-style-type: none">• Capacity challenges are the primary reason for the errors that have occurred. <p>Report on the audit of the annual performance report</p> <p>“17. The material findings on the usefulness and reliability of the performance information of the selected strategic objectives are as follows:</p> <p>Strategic objective 1 – creation of knowledge for dissemination of new technologies and innovative practices, that facilitates fair trade, supports policy, regulatory and industrialisation objectives, and creates tool for conformity assessments to enhance confidence of products</p> <p>Indicator: SANS supporting reimagined industrial priority sectors as defined by dtic</p> <p>18. The source information for measuring the planned indicator was not clearly defined and related systems and processes were not adequate to enable consistent measurement and reliable reporting of performance against the predetermined indicator definitions. As a result, limitations were placed on the scope of my work and I was unable to audit the reliability of the achievement of “79% of the standardisation commitment” reported against target SANS supporting reimagined industrial priority sectors as defined by the dtic in the annual performance report.</p> <p>Indicator: Government, SOE, regulatory and related public sector engagements</p> <p>19. The source information and the method of calculation for achieving the planned indicator was not clearly defined.”</p>	<ul style="list-style-type: none">• There were material misstatements identified in the annual performance report were subsequently corrected as well as indicators that were not well defined and verifiable.• These have been corrected on the new version of the corporate plan.
