

ADVANCEMENT AS LOVEMORE BROS RICHARDS BAY WAREHOUSE OFFERS BONDED STORAGE FACILITY

LOVEMORE BROS are leaders in Machine Moving, Rigging, Warehousing, Abnormal Load Transport and Mechanical Projects. The company has depots in Durban, Richards Bay Industrial Development Zone and Johannesburg. It boasts a substantial operating capacity by virtue of its quality fleet of crane trucks, low beds and critical infrastructure, such as its warehousing facilities and gantries. Lovemore Bros offers a fully integrated service geared to improve reliability, safety and efficiency for any of your machinery logistics needs.

From having a fleet of 3 crane trucks in 1989 to now operating a fleet of 32 trucks and more than 12 000 sqm of custom-designed warehousing countrywide.

The company's signature fleet consists of well branded rigid trucks with hydraulic truck mounted cranes, abnormal extendable trailers, a range of forklifts and numerous specialised hydraulic lifting machines, such as mobile gantries and self-propelled trailers.

Being one of the RBIDZ operational locators, the logistics company has further established a **Bonded Storage Facility** within its Richards Bay Warehouse in RBIDZ Phase 1A estate which is sited 500 metres from the eastern harbour entrance of the Port of Richards Bay, making it an ideal location for easy and fast accessibility to the harbour.

The facility will operate as a warehouse for the retention of imported goods pending duty levy payments from customers.

The Lovemore Bros bonded warehouse aims to provide the following benefits to clients:

- Safe and secure storage facility
- Duty and VAT payments which can be deferred during storage up to 6 months
- Electronic Bond Book Register held to ensure correct reporting to SARS
- Electronic set of the documents kept for ease of access, when required
- The SOS facility allowing for repacking of products while in storage

Lovemore Bros prides itself with its substantial infrastructure, reliable equipment and teams of skilled personnel with many years of experience in the heavy lift logistics industry.
