Contents

1 the dtic strategy context

- About **the dtic's** mandate
- Impact statement and outcomes
- **the dtic's** vision, mission and values
- Summary SWOT analysis
- Strategic thrusts addressing economic pillars required for growth
- Economic Cluster (ESIEID) MTDP targets and pillars summary

2 the dtic strategic goals and priorities

- **the dtic** contribution to MTDP targets
- **the dtic's** "three Ds" strategy framework and priorities summary
- **the dtic's** delivery is structured and organised into programs

3 the dtic APP

- **3-year MTEF** targets
- APP Targets

Financials

Budgets and funding

the dtic's vision, mission and values

Vision

A dynamic and globally competitive South African economy built on the full potential of all citizens

Mission

the dtic working with its entities, will achieve inclusive economic growth by coordinating and enabling government wide interventions to:

- Promote structural transformation;
- Achieve stronger industrialisation;
- Transformation in terms of skills for the economy and enterprise development;
- Increase trade, investment and exports; and
- Promote the ease of doing business

Values

the dtic's values are:

1. Operational excellence;
2. Intellectual excellence;
3. Quality relationships;
4. Integrity, transparency, professionalism, ownership, leadership and teamwork.

2030 Impact Statement

Driving inclusive economic growth through sustainable industrialisation and job creation for a globally competitive South Africa

2025 - 2030 Outcomes

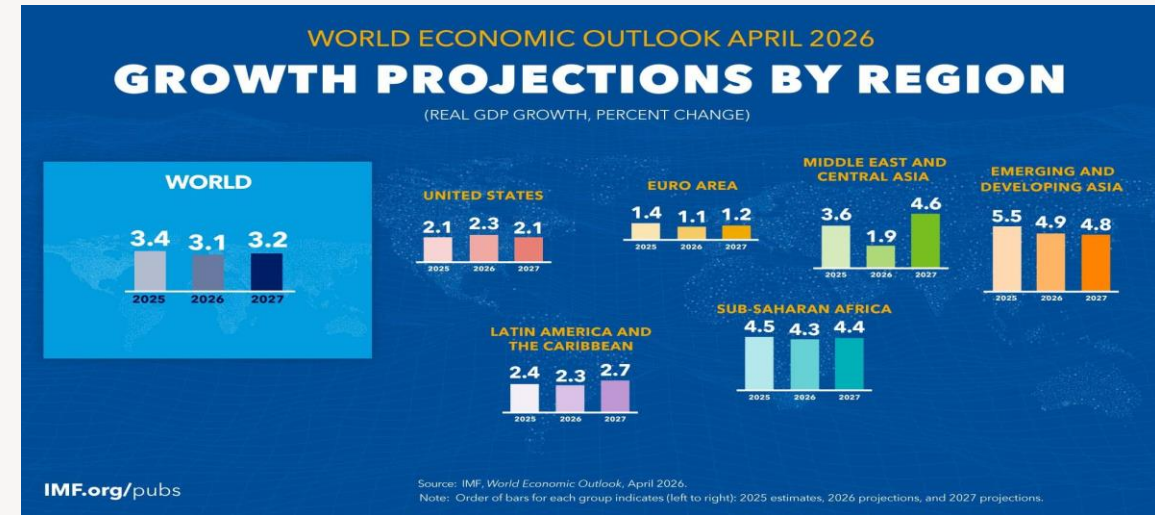

1. Re-industrialisation
2. Job creation
3. Transformation
4. Capable state

Global Economy -

Global growth is expected to slow to 3.1% in 2026, reflecting supply chain disruptions

- Global growth is projected to hold steady at 3.1%, with 2026 growth expected to be lower than 3.4% recorded in 2025.
- Growth in Advanced Economies is expected to grow by 1.8% in 2026, driven by digital transformation and the green energy transition.
- Emerging economies are estimated to grow by 3.9% in 2026 and expanding by 4.2% in 2027 driven primarily by industrialisation, increasing domestic consumption and technological adoption. Demand for critical minerals would see the EMDEs growth increasing; with structural reforms undertaken – such as regulatory framework, education and labour markets improving productivity.
- Global inflation is expected to rise over 4.4% driven by geopolitical tensions in the Middle East causing surges in oil, gas, and fertilizer costs.
- Key risks and primary threats to the outlook are geopolitical tensions, potential trade wars, high debt loads, and a potential, sudden correction in Artificial Intelligence investment.
- The recent escalation of tensions in the Middle East is triggering significant economic and diplomatic ripple effects in South Africa, which include:
 - Surging fuel prices
 - Currency volatility
 - Inflationary pressure
 - Stock market decline
 - A more cautious approach to interest-rate cuts, or a hike, to combat rising inflation.

Overview of the World Economic Outlook Projections - Percentage change

	2025	Projections	
		2026	2027
World Output	3.4	3.1	3.2
Advanced Economies	1.9	1.8	1.7
United States	2.1	2.3	2.1
Euro Area	1.4	1.1	1.2
Germany	0.2	0.8	1.2
France	0.9	0.9	0.9
Italy	0.5	0.5	0.5
Spain	2.8	2.1	1.8
Japan	1.2	0.7	0.6
United Kingdom	1.3	0.8	1.3
Canada	1.7	1.5	1.9
Other Advanced Economies 2/	3.0	2.6	2.2
Emerging Market and Developing Economies	4.4	3.9	4.2

Domestic Economic Overview 1 - GDP

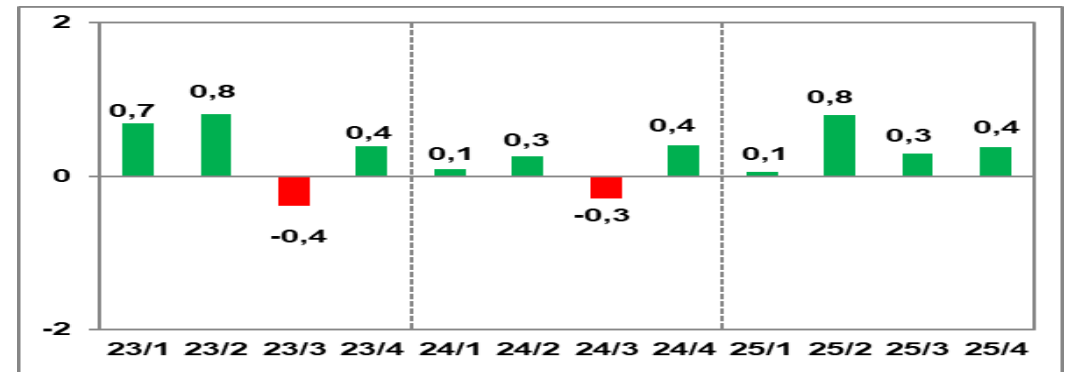

Gradual Recovery, but Structural Challenges Keep Growth Modest

- The South African (SA) economy ended 2025 on a slightly stronger note than expected.
- Real GDP expanded by 0.4% (q-on-q) & by 0.8% (y-on-y) in the 2025Q4, a touch above the consensus expectation of 0.3%, driven largely by the tertiary sector.
- This was the fifth consecutive quarter of positive growth, indicating that the gradual recovery remains intact towards year-end.
- Growth in the quarter was propelled by the tertiary sector registering 0.7% (mainly finance and trade), which offset the contraction in other two sectors vis primary sector (-0.2%) and secondary sector (-0.9%).
- Due to the persistent drag from the country's structural challenges, which were further compounded by high US tariffs and the expiry of AGOA, the full-year outcome was somewhat softer than anticipated
 - Real GDP grew by 1.1% in 2025
 - more than double the 0.5% recorded in 2024,
 - but still reflecting only modest economic momentum.

Source: StatsSA

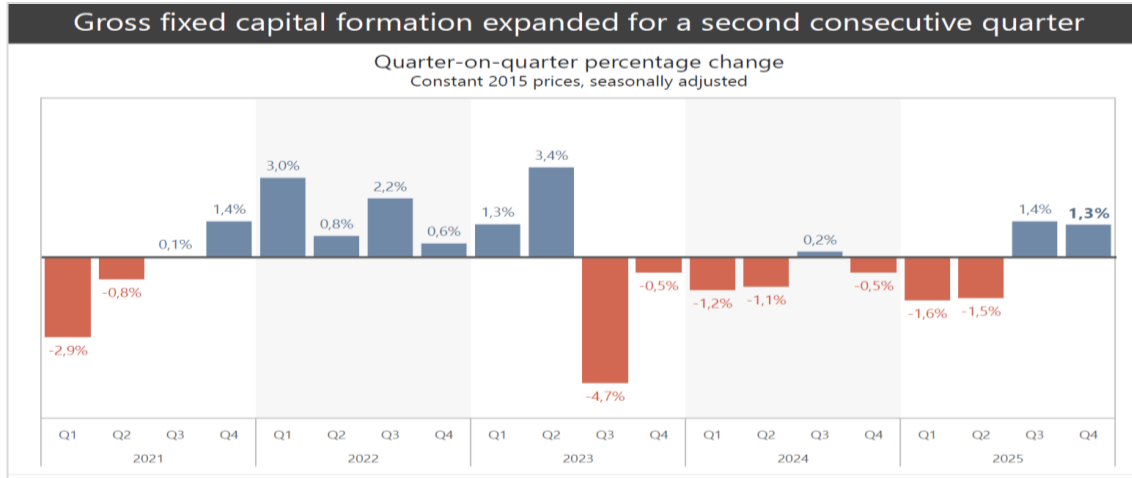

The SA Economy Records the 5th Consecutive Quarterly Growth in 2025Q4

Source: StatsSA

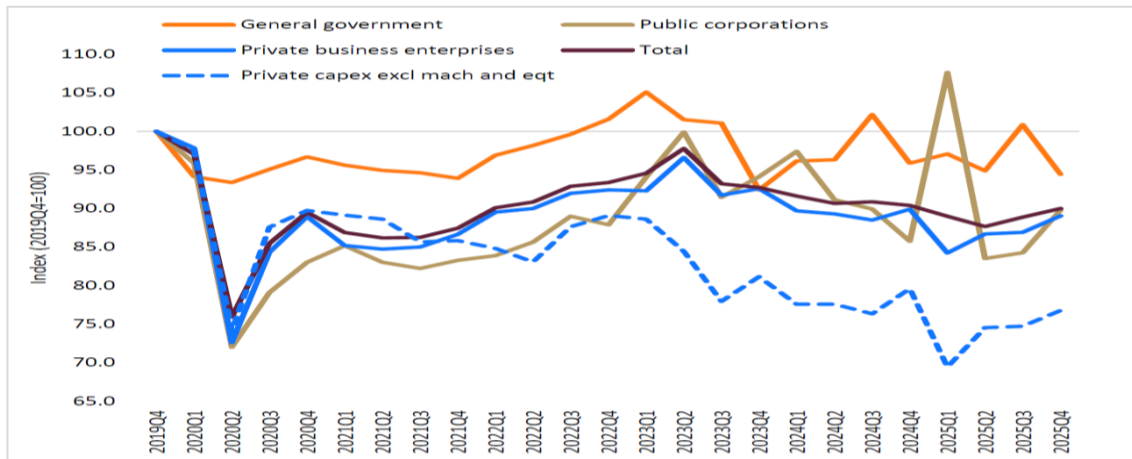

Gross Fixed Capital Formation (GFCF) and Trade

- Gross fixed capital formation expanded for a second consecutive quarter

Source: StatsSA

- Private investment has picked up, but still plenty of catching up to do

Source: StatsSA & BER

- In the year 2025 South Africa recorded a trade surplus of R201 bn with the rest of the world.
- The majority of SA exports were destined to Asia (R613bn) and Africa, with SADC at (R500bn).
- In 2025, the exports increased from R2.048 to R2,078trn (1.86%), mostly at the back of increased trade in metal products (13%) and vegetable products (10%).
- Imports rose from R1.843trn to R1.876trn (1.8%) in the same period; driven largely by increased trade in machinery & electrical equipment (7.2%); and vehicles and transport equipment (9.4%).
- On a quarterly basis exports increased by (0.4%) in 2025Q4 mostly influenced by vegetable products (37%) and machinery & electrical equipment (5.6%).
- Imports on the other hand declined by 6% driven by mineral products (-8.1%) and chemical products (-12.8%).
- While higher US tariffs and the expiry of AGOA are believed to be behind the poor export performance, higher consumer spending and the recovery in fixed investment, which underpinned demand for capital goods was favourable to imports.

Source: StatsSA

the dtic's economic and industrial strategy context summarised by a SWOT Analysis

Strengths

- Resilient manufacturing, mining and agriculture sectors
- Availability of critical mineral resources and abundant solar radiation position SA to benefit from green industrialisation if decisive policy action is taken now
- Internationally competitive agro-industrial (fruit, meat, processed foods, mohair, wool, hemp and cannabis) and autos value-chains
- Sophisticated financial services sector and strong service sectors in areas such as mining, civil and construction engineering, communications technology, tourism and hospitality
- Growing, youthful population eager to acquire skills and start a business

Weaknesses

- Economic structure that exposes SA to volatile commodity cycles
- Domestic consumer market too small to encourage world-scale investments
- Rising cost of doing business in SA and growing infrastructure gaps and inefficiencies in rail, ports, roads and water
- Under-investment in R&D, commercialisation and innovation by both public and private-sector
- High levels of concentration limit entry of dynamic, new firms and SMMEs
- Significant regulatory barriers and red-tape which is constraining investment and growth
- Exposure to global trade volatility and trade diversion risks in a small, open economy
- Slowing public-sector investment that doesn't 'crowd-in' private-sector investment
- South Africa is a relatively open economy, with few barriers to illegal and illicit imports, which makes domestic firms vulnerable to disruptive imports and global demand and supply imbalances

SWOT

Opportunities

- AfCFTA market for food, autos, mining equipment, and financial services is massive
- Digitally-savvy, youthful population eager to enter the Digital and Knowledge Services sector
- Emerging sectors such as green industries, critical minerals and biotech, which could leverage off SA's natural resources and manufacturing capabilities
- Focusing government support, including R&D, to catalyze innovation in priority sectors such as digital, consumer goods, industrial energy and defense
- Improve utilisation of existing Preferential Trade Agreements and enhance market access

Threats

- Global decarbonisation interventions and protectionism, which may affect SA disproportionately
- Geo-political tensions and 'trade wars' which may constrain exports, limit inward investment and expose SA to global surplus production of key products such as steel
- Economic instability that negatively affects businesses
- Heightened competition from other regions, which may offer better incentives, lower costs or more developed infrastructure to divert investment from SA
- Climate change and Environmental risks, i.e., natural disasters, floods and long-term resource constraints, which may disrupt key sectors such as agriculture, mining and infrastructure.

the dtic priorities are aligned to and support the 7th Administration's priorities

National government priorities

- Inclusive growth and job creation
- Reduce poverty and tackle the high cost of living
- Build a capable, ethical & developmental state

Invest in local industrialists and technologies that generate value from natural resources through beneficiation.

Strategy alignment and cascade

Economic cluster (ESIEID) pillars

- Structural reforms
- Induced demand
- Investment stimulus
- Catalytic sectors
- Transformation

Medium-term
Development
Plan (MTDP)

Strategy execution support

the dtic's Priorities framework

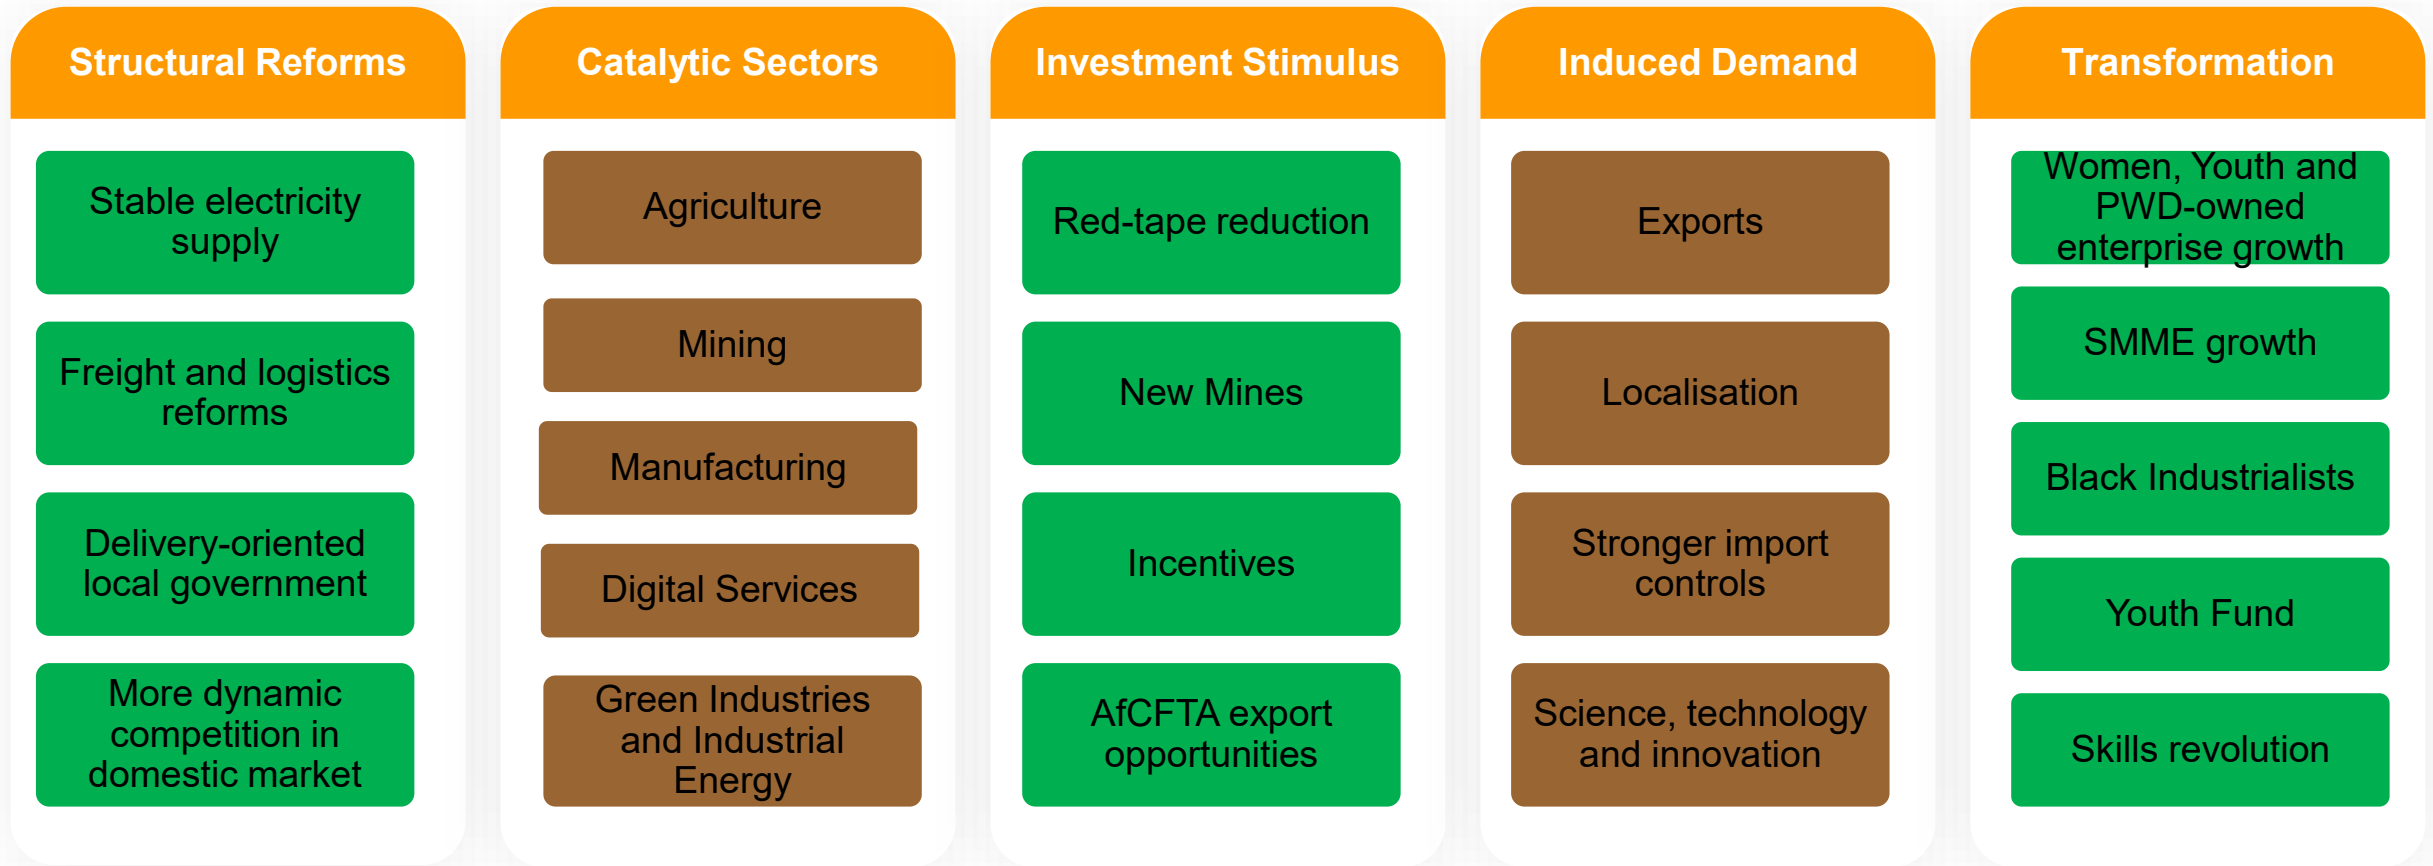

- Decarbonisation
- Diversification
- Digitalisation

National
Industrial
Policy (NIP)

An approach anchored on:

- A strategy rooted in minerals beneficiation
- Policy sequencing and collaboration
- Prioritising inclusive growth

The Economic Cluster's (ESIEID) MTDP has identified 5 pillars which represent key interventions to achieve economic growth of 3% by 2029

Economic cluster (ESIEID) targets over five-year 2024-29

Economic Cluster (National) targets

Jobs Created

7 million

Investment

R 3 trillion

100 municipalities

the dtic and its entities' contribution to targets over five-year 2024-29

the dtic Direct contribution

Jobs Created 60 000 Number of jobs created	Investment R 2 trillion Investment secured	SMMEs Funded R 2 Billion funding from competition & transformation settlements
Work Experiences 250 000 Unemployed Youth Trained	Subsistence Farmers 10 000 Supported through financial & non-financial instruments	Industrial Parks 45 Industrial Parks revitalised
Induced demand 30 products or technologies designated	Workers benefiting through ESOPs 800 000	Transformation fund R 100 billion
Domestic Tourism Trips 0	Exports increase R3 trillion (World) R1.1 trillion (Africa)	Red Tape Reduction 650 Investor Unblocking 6 One Stop Shops established Amendment of regulations

the dtic Entities' contribution

Jobs Created 1 600 000	Investment R380 billion
Work Experiences <ul style="list-style-type: none"> • 1 000 Interns • 345 000 Job opportunities 	Subsistence Farmers 50 000 farmer/agro-business
SMMEs Supported 37 000	Industrial Parks & Township Incentive R33 billion on transformation
Domestic Tourism Trips 2 150 000 tourist arrivals	Exports increase (world) - 5 yrs <ul style="list-style-type: none"> • NEF: R5 billion • IDC: R80 billion • ITAC: R1.4 trillion

Driving industrial transformation through the Three D's: From foundation to scaled impact in **Year 2 (2026/2027)**

The Three Ds remain the Strategic Engine of the APP and the Delivery platform for economic transformation:

The **dtic** Strategy and APP tabled in 2025/2026 (Year 1) was underpinned on the following Strategy elements and these continue to anchor the **2026/27 APP**:

- Three Ds'' (Decarbonisation, Diversification, Digitalisation)
 - **Decarbonisation** → Green industrial growth & global competitiveness
 - **Diversification** → Trade expansion, industrial depth & localisation
 - **Digitalisation** → Productivity, services exports & youth jobs
- Clear economic outcomes (growth, jobs, industrialisation)
- Defined sector priorities
- Prioritised institutional capacity through executive appointments, Monitoring & Evaluation
- Policy alignment for implementation as reflected in entity plans

the dtic's strategic priorities are organised into the “three Ds”

- Mitigate the negative impact of environmental protectionism
- Acquire global technologies and support innovation thereof to create new subsectors with growth potential
- Support a broad range of sectors to innovate and scale up the production of green goods and services
- Contribute to addressing climate change given the forecast impacts on African countries

- Guide investment to new high-growth sectors
- Stabilize sectors in distress and reposition for growth
- Reduce tax and export dependency on volatile primary minerals exports
- Grow the number of exports
- To encourage dynamic new entrants and create jobs where people live, increase support to and procure from township businesses and MSMEs

- The “digital” sector is growing rapidly in scope and scale
- New tradable digital services are an essential export opportunity in which young people and MSMEs could flourish
- Large number of global unfilled vacancies
- Economywide productivity improvements, including in network industries and government services

Green trade barriers (including CBAM)

- Steel and aluminium

Critical minerals value chain

- Battery and vehicles
- Metals
- Renewable Energy
- Green Hydrogen

Industrial Sector

- Agro-processing
- Cannabis and Hemp
- Chemicals, Plastics, Personal Care, Clothing, Textile
- Oil & Gas

Services

- Tourism
- GBS

Digital Economy

- Digital infrastructure
- Ecommerce
- Digital skills

Future industries & advanced manufacturing

- Aerospace and defense
- Pharmaceuticals
- Electrotech

What Progressed in Year 1 (2025/2026)

Department progressed from policy design to operational delivery; overcoming a constrained fiscal environment, optimising impact through key interventions implemented:

Investment attraction:

- Over **R645bn in investments secured** including commitments at the at the South African Investment Conference held on 31 March 2026.

SEZ

- To date **224 operational inventors across the 12 SEZs** in 8 provinces, with a cumulative investment value of approximately R 32 billion, creating 28 821 permanent job opportunities.
- Fetakgomo Tubatse SEZ, expansion of the Dube Trade **Port have been designated**. Vaal SEZ currently undergoing public consultation with the intention to designate.

Confidence building

- Improved compliance with the Companies Act requirements contributing to **SA being removed from the FATF greylist**.

Ease of doing business interventions

- The legislative and policy amendments implemented to remove the systemic blockages
- Initiated the **development of the Omnibus Bill** to enable streamlined licensing, fast-tracked visas for scarce skills, and digitised permits across multiple regulatory domains. that no amount of case-by-case intervention can resolve.

Industrial financing

- Implemented a suite of **incentives** supporting priority sectors. The incentives support economic development criteria, including increasing employment, transformation, green technology, localisation, and regional spread
- R1.4 billion to projects located outside the 5 main metros, R613 million was disbursed to SMMEs, women and youth-owned businesses, R688 million disbursed to Black Industrialists.
- *Priority clusters: Innovation Cluster, Global Business Services, Infrastructure Investment Cluster, Export Promotion Cluster, Manufacturing Cluster.*

Localisation

- Finalising the **list of key products/commodities to be designated** for local content to boost local production, attract investments, and create job opportunities. *Includes: Cement, Steel, Solar PV components, Rail Rolling Stock, Buses, Transformers, Fire-fighting Vehicles, Pipes and Fittings, Valves, and Textiles, Clothing, leather and footwear, working vessels*
- The **Public Procurement Regulations** (PPRs) by the National Treasury present a key opportunity to drive localisation.

Industrial policy

- Targeting industrial policy interventions in sectors with high economic and employment multipliers.

- **Masterplans:** Implementing 9 Masterplans, covering 646 769 workers and developing 1 Masterplan.

What Progressed in Year 1 (2025/2026) – continued.

Key trade interventions implemented to grow and diversify export

To unlock the markets for SA exports:

1. Concluded the **Clean Trade and Investment Partnership with the EU**, unlocking approximately €12 billion for decarbonisation and industrial projects. **45 have been identified bankable projects** to facilitate implementation
2. Secured **EU derogation on electric vehicle (EV) rules of origin**, enabling exports of South African EVs and hybrids.
3. Deployed key trade instruments, including tariff reviews and inclusion of EVs and critical minerals under the Automotive Production and Development Programme.
4. Signed the **CAEPA** to unlock duty-free treatment, and discussions on a proposed **Semiconductors MoU**
5. Successfully engaged with **China** aimed at ensuring the finalisation of a bilateral trade MoU on the exchange of top 100 export products..
6. Submitted a draft offer for the Early Harvest to SACU and national Constituencies for consultations.
7. Initiated the amendment of an MoU with the China Certification and Inspection Group on **Pre-Export Verification of Conformity (PVOC)** to ensure smooth implementation.
8. Concluded negotiations with India on the Terms of Reference (ToR) for a preferential trade agreement (PTA) pending signature. Namibia as the SACU coordinator is engaging India to facilitate the signature on behalf of SACU.
9. Ascension to Afreximbank unlocking access to extended financial support from the Bank.

What Progressed in Year 1 (2025/2026) – continued - 2

Key interventions to create a conducive regulatory environment to support growth

- **National Gambling Amendment Regulations** introduces amendments to strengthen player protections, provisions related taxes,
- **ITAC- Safeguard Regs proposed amendments** to strengthen the decision-making framework, provisions on public-interest hearings, clarifying the treatment of developing-country exemptions, providing a more detailed framework for assessing “unforeseen developments”, reinforce requirements relating to adjustment plans and establish clearer rules for mid-term reviews and the extension of safeguard measures.
- **Statement 400 proposed amendments gazetted** to give legislative expression to the Transformation Fund and provide the dtic with a legislative muscle to enforce it.
- **National Credit Act Amendment Regs drafted** to address gaps in access to finance by MSMEs. However, this was withdrawn as some of the provisions with implications for student debt. **The process to review the regulations will include necessary changes to protect students.**

Key interventions to promote transformation

- **Transformation Fund:**
 - Co-created by civil society and government as a catalytic blended-finance instrument to accelerate inclusive economic growth
 - To provide access to capital for black-owned and high-impact SMMEs, particularly those driving industrialisation, innovation, localisation, and sustainable development.
 - Strategic partnerships have been secured across public and private sectors, contributing to capital mobilisation with funding commitments received from various partners in the public and private sectors amounting to over R17 billion.
- **Review of the B-BBEE framework**
 - Has been initiated to strengthen the existing instruments of empowerment with clear parameters for measuring empowerment in the short term, and a comprehensive make up of policy to address socio economic development challenge in the long term.

Therefore... 2026/2027 will consolidate delivery & accelerate economic impact

Strategic Narratives Driving the APP 2026/2027

1. Implement of the Industrial Development Strategy for guiding industrialisation and localisation in South Africa
2. Expand domestic manufacturing capacity by 0.6%.
3. Increase investment by R750 Billion (R3 Trillion over 5 years).
4. Targeting R154 billion in exports to Africa in priority industrial sectors linked to implementation of the AfCFTA.
5. Expanding South Africa's Trade Footprint through Market Access, Integration and Trade Diplomacy.
6. 20% increase in ownership by black-owned enterprises in priority sectors (Agri-BEE, Forestry, Financial Services, Tourism and ICT),
7. Revised B-BBEE regulations published for implementation.
8. Above 100 000 Employment creation through **the dtic** interventions (SEZ's, GBS, Incentives, Exports, Transformation and Competition).
9. Revised B-BBEE regulations published for implementation
10. R4 billion disbursed to enterprises that comply with the latest B-BBEE Act

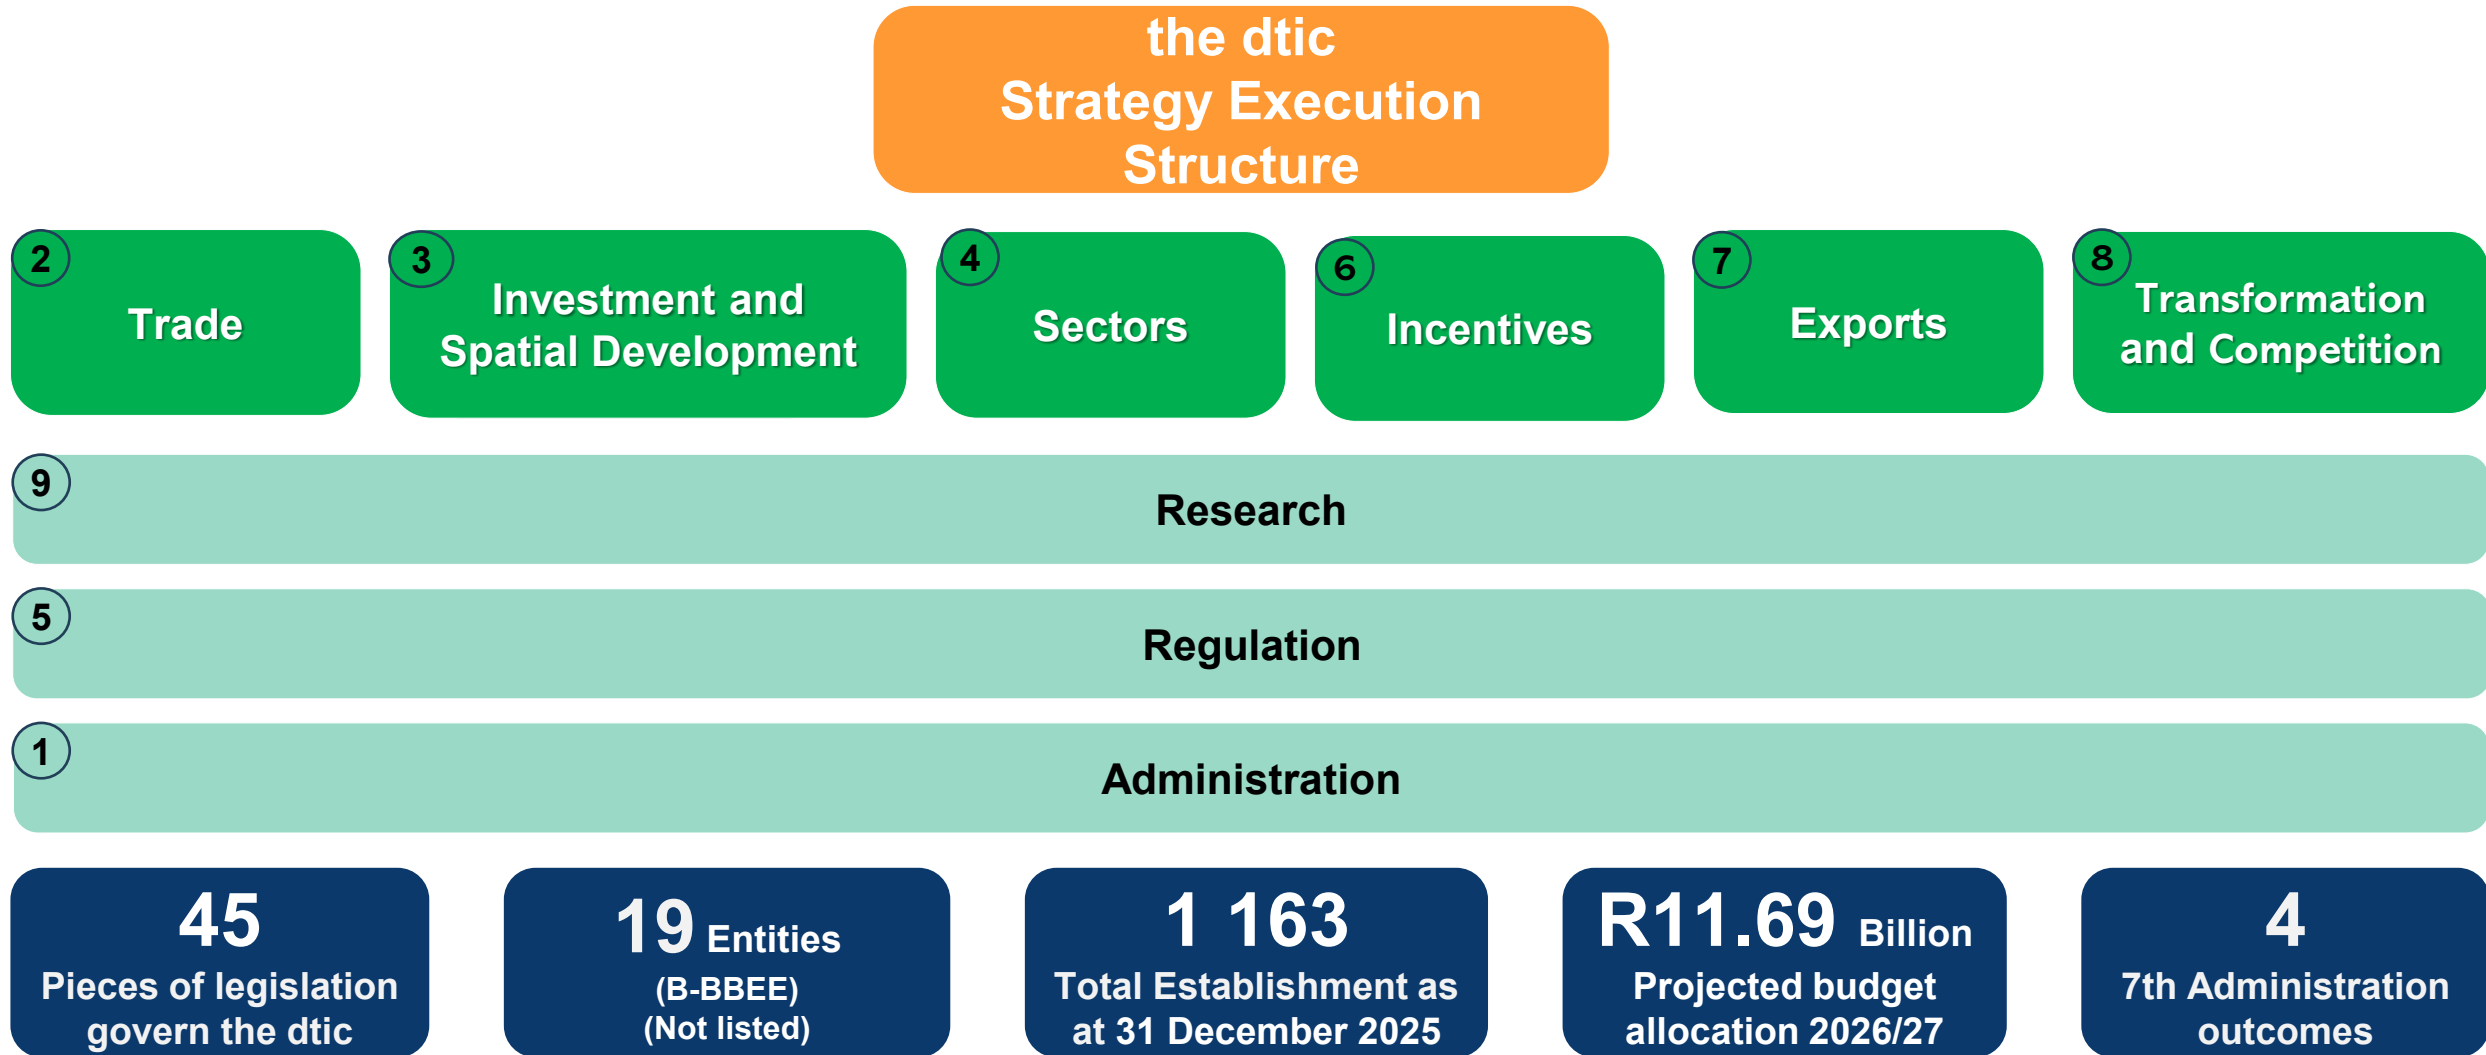

Cross-Cutting Enablers:

- Omnibus Bill on the ease of doing business and red tape reduction for investment acceleration.
- Regulatory reforms in the following areas to regulate and deal with societal issues:
 - National gambling (regulating online gambling; online gambling advertising)
 - Liquor (e-Commerce)
 - National credit (Affordable credit)
 - Companies regulation (ease of doing business)
- Reduced turnaround times and streamlining of processes **by the dtic entities.**
- Interventions to improve the ease of doing business by regulatory entities to ensure increased investment, through **the use of the matrix or methodology.**
- **Illicit trade curtailed** through efficient tracking regulations facilitating, strengthened tracing of illicit trade.

Indicators Alignment to Government Strategic Priorities

ALIGNMENT / PRIORITY AREA	PROGRAMME SUMMARY	2025/26 INDICATORS	2026/27 INDICATORS

the dtic's strategy is delivered through organised programmes

the dtic's APP targets

Programme 1: Administration

Purpose: Provide the Department with strategic leadership, management and support services.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
1	Capable State & Transformation	Procurement towards women owned businesses	Percentage (%) spent on procurement towards women owned businesses	40% spent on procurement towards women owned businesses
2		Procurement towards youth owned businesses	Percentage (%) spent on procurement towards youth owned businesses	30% spent on procurement towards youth owned businesses
3		Procurement towards PWD owned businesses	Percentage (%) spent on procurement towards PWD owned businesses	3% spent on procurement towards PWD owned businesses
4		B-BBEE recognition level achieved	Level of B-BBEE recognition achieved	B-BBEE Level 3 contributor status on the Specialised Scorecard
5		Clean audit outcome attained	Level of audit outcome attained	Clean audit outcome for the 2025/26 fiscal year attained
6		Creditors' payments made within target timeframes	Percentage (%) of creditors payments made within target timeframes	100 % creditors payments made within 30 days
7		Secured funding activated for implementation	Percentage of secured funding activated for implementation within the financial year	60% of secured funding activated for implementation
8		Entities achieving 80% performance	Percentage (%) of entities achieving 80% performance	100 % of entities achieving 80% performance
9		Reduction of the vacancy rate of funded posts	Percentage (%) reduction of the vacancy rate of funded posts	2.5% reduction of the vacancy rate to 12%
10		Digitalisation of Incentives systems	Percentage (%) of Incentives systems digitalised	100% of Incentives systems digitalised

Programme 2: Trade

Purpose: Build an equitable global trading system that facilitates industrial development by strengthening trade and investment links with key economies and fostering Africa's development, including regional and continental integration and development co-operation in line with the African Union Agenda 2063.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
11	Regional integration Export expansion of value-added goods African industrialisation	AfCFTA implemented and exports to the rest of the Continent increased	Number of non-SADC countries that have started trading under the AfCFTA <i>MTDP target</i>	25 non-SADC countries that have started trading under the AfCFTA
12			Percentage (%) of SACU tariff lines covered by preferential market access for AfCFTA implementing countries, subject to reciprocity	Additional 10% SACU tariff lines covered by preferential market access for AfCFTA implementing countries, subject to reciprocity
13			Number of AfCFTA Protocols ratified <i>MTDP target</i>	Ratify 1 AfCFTA Protocol
14	Export diversification FDI attraction Industrial value chains	Trade and investment cooperation frameworks implemented with priority trading partners to increase exports, attract investment, promote industrial cooperation and technology transfer, including	Number of economic interest strategies for key trading partners or regions finalised <i>MTDP target</i>	Finalise 5 economic interest strategies for key trading partners or regions
15			Number of economic interest strategies for key trading partners or regions implemented over the MTDP	Implement 11 economic interest strategies for key trading partners or regions
16			Number of trade barriers resolved on priority products per trade agreement	Resolve 10 trade barriers on priority products per trade agreement
17			Number of Investment Framework Agreements signed with priority trading partners to improve the business climate to attract investment	Sign 5 Investment Framework Agreements with priority trading partners
18	Export growth Retention of jobs in key sectors (agro-processing, autos, wine)	Improved Market Access Under Existing Trade Agreements and New Trade Agreements for high-value agro and industrial products	Number of market access issues agreed under the existing SACUM-UK EPA	4 market access issues agreed under the existing SACUM-UK EPA

Programme 2: Trade

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
19	Export growth Retention of jobs in key sectors (agro-processing, autos, wine)	Improved Market Access Under Existing Trade Agreements and New Trade Agreements for high-value agro and industrial products	Number of market access issues agreed under the existing SADC-EU EPA	3 market access issues agreed under the existing SADC-EU EPA
20			Cumulation agreement implemented with the EU to increase market access for hybrids and EVs	Implement cumulation agreed with the EU to increase market access for hybrids and EVs
21			Early Harvest Agreement under the CAEPA with China signed to expand market access for SA goods with trade barriers resolved for a number of priority products	Sign the Early Harvest Agreement under the CAEPA with China
22			Number of trade barriers resolved for priority products under the CAEPA with China	Resolve 10 trade barriers for priority products under the CAEPA with China
23			Trade Agreement with the USA signed to preserve predictable market access for SA goods	Sign Trade Agreement with the USA to preserve predictable market access for SA goods
24			Preferential Trade Agreement with India signed to expand market access for SA goods	Sign Preferential Trade Agreement with India to expand market access for SA goods
25			Manufacturing depth Regional industrial leadership	Regional Value Chains in Priority Industrial Sectors implemented
26	SACU-Egypt-Algeria Automotive Industrial Partnership Agreement signed to promote complementary trade	Sign SACU-Egypt-Algeria Automotive Industrial Partnership Agreement		

Programme 3: Investment and Spatial Industrial Development

Purpose: Support foreign direct investment flows and promote domestic investment by providing a one-stop shop for investment promotion, investor facilitation and aftercare support for investors as well as increase participation in industrialisation.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
27	Industrialisation	Rand value of verified investments attracted in the economy	Rand value of verified investments attracted in the economy	R750bn Rand value of verified investments attracted in the economy
28		Special Economic Zones designated to catalyse industrialisation, focusing on the New Industrial Policy Sectors	Number of Special Economic Zones designated to catalyse industrialization, focusing on the New Industrial Policy Sectors	1 SEZ designated to catalyse industrialization, focusing on the New Industrial Policy Sectors
29		Special Economic Zones operationalised	Number of Special Economic Zones operationalised	10 of 12 Special Economic Zones operationalised
30		Strategic land parcels secured for trade logistics hub	Number of strategic land parcels secured for trade logistics hub	1 Strategic land parcels secured for trade logistics hub
31		Learners trained in various industry-related skills within industrial zones	Number of learners trained in various industry-related skills within industrial zones	300 learners trained in various industry-related skills within industrial Zones
32		Industrial parks revitalised into competitive infrastructure platforms to support sector diversification in marginalised areas	Number of industrial parks revitalised into competitive infrastructure platforms to support sector diversification in marginalised areas	15 Industrial parks revitalised into competitive infrastructure platforms to support sector diversification in marginalised areas
33		Jobs to be created through industrial development	Number of jobs to be created through industrial development	6 000 Jobs to be created through industrial development

Output: Special Economic Zones designated to catalyse industrialisation, focusing on the New Industrial Policy Sectors

Output Indicator: Number of Special Economic Zones designated to catalyse industrialisation, focusing on the New Industrial Policy Sectors

Provincial Focus: North West

District: Bojanala Platinum District Municipality

Focus: Support the North West Province in establishing the proposed Bojanala SEZ

Resources: Opex - Industrial Zones Programme, SEZ Unit, SEZ Advisory Board

Output: Special Economic Zones operationalised

Output Indicators: Number of Special Economic Zones operationalised

Provincial Focus: Limpopo & Western Cape

District: Vhembe District & West Coast District

Focus: Support the Limpopo and Western Cape Provinces to operationalise the Musina Makhado and Freeport Saldanha SEZs, respectively

Resources: Opex - Industrial Zones Programme and SEZ Unit

Output: Strategic land parcels secured for trade logistics hub

Output Indicators: Number of strategic land parcels secured for trade logistics hub

Provincial Focus: Mpumalanga

District: Ehlanzeni District Municipality

Focus: Support the Mpumalanga Province through identifying and designating additional land for the Nkomazi SEZ to establish a trade logistics hub operated by DP World

Resources: Opex - Industrial Zones Programme, SEZ Unit and SEZ Advisory Board

Output: Learners trained in various industry-related skills within industrial zones

Output Indicators: Number of learners trained in various industry-related skills within industrial zones

Provincial Focus: Gauteng, Free State, Eastern Cape, Western Cape, and KZN

Focus: Through M&E, assess the number of learners trained in operational SEZ. Assess the skills required and opportunities for labour absorption.

Resources: Opex - Industrial Zones Programme and SEZ Unit.

Output: Jobs to be created through industrial development

Output Indicators 2026/27: Number of jobs to be created through industrial development

Output: Jobs to be created through industrial development

Provincial Focus: Gauteng, Free State, Eastern Cape, Western Cape, and KZN

Focus: Through M&E, assess the number of new jobs created through operational investment and new investments operationalised

Resources: Opex - Industrial Zones Programme and SEZ Unit

LIST OF INDUSTRIAL PARKS and HUBS TO SUPPORT MSMEs in Township & Rural Economy - 2026/27

	Name of Prioritised IP – 2026/27 FY	Location: Town / City and Province	Planned Activities
1	Komani IP	Komani (EC)	<ul style="list-style-type: none"> Application for CIP funding for critical infrastructure support Inception of new funding, ownership and governance model with private sector partnership Precinct development for MSMEs, artisans / skills centre and digital hub Cluster Development for active and new industrial park sectors Continuous institutional capacity development support with international institutions (e.g. UNIDO, GIZ, SECO, UNDP) Support districts / regions investment and industrial policy strategy alignment
2	Ezakheni IP	Mandeni (KZN)	
3	Collins Chabane EIP	Greater Giyani (LP)	
4	Laborie IP	Ekurhuleni (GP)	
5	Markman IP	Qqeberha (EC)	
6	Phuthaditjaba IP	QwaQwa (FS)	
7	Kathu IP	Gamagara (NC)	
8	KaBokweni IP	Kabokweni (MP)

14	Garankuwa IP	Garankuwa (NW/GP)	
15	Babelegi IP	Hamanskraal (NW/GP)	

InvestSA One Stop Shops Implementation

Continued rollout and strengthening of the InvestSA One Stop Shops (OSS) across provinces to improve the investment facilitation environment.

Operationalise and launch InvestSA One Stop Shops in Eastern Cape and Limpopo.

Provide technical support to Free State and North West provinces for the establishment of InvestSA OSS facilities in 2027/28.

Service delivery improvement of InvestSA One Stop Shop facilities in Western Cape, Northern Cape, Gauteng and KwaZulu-Natal.

- Operational planning engagements conducted with National departments, agencies, SALGA, and district municipalities to support OSS implementation and coordination.
- Draft Memoranda of Understanding (MoUs) developed to facilitate the devolution of OSS functions to local government level.
- Virtual and physical Intergovernmental Relations (IGR) / Local Economic Development (LED) engagements held to enhance collaboration and service delivery.
- Regulatory unblockings and investor support interventions implemented to improve ease of doing business and accelerate project implementation.
- Monitoring and reporting processes strengthened through improved verification and quality assurance of Proof of Evidence (PoE).

Programme 4: Sectors

Purpose: Design and implement policies, strategies and programmes to strengthen the ability of manufacturing and other sectors of the economy, to create decent jobs, promote inclusion and increase value addition and competitiveness, in both domestic and export markets.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
34	Industrialisation	Industrial Development Strategy for guiding industrialisation and localisation in South Africa	Percentage (%) increase in domestic manufacturing growth	0.6 % increase in domestic manufacturing growth through the implementation of the Industrial Development Strategy
35	Critical Minerals	% share of the global market for value-added minerals	Percentage increase (%) of global market for value-added minerals	1% of global market share of value added critical minerals
36	Localisation	Increase in the procurement value of locally manufactured goods and services	Rand value increase in the procurement value of locally manufactured goods and services	R100 billion increase target in the procurement value of locally manufactured goods and services achieved
37		% reduction in the Importation of rail transport equipment	Percentage (%) reduction in the Importation of rail transport equipment	1.5 % reduction in the importation of rail transport equipment
38		The development and implementation of the Hemp and Cannabis Commercialisation Policy	Increase the growth of the Cannabis Industry by 10% per annum	10% increase in the growth of the Cannabis industry per annum
39	Rail Costs Reduction	Rail tariff reduction support programme for strategic sectors	Percentage (%) reduction in the cost of rail transport	2% reduction in the cost of rail transport
40	Green manufacturing	Electric Vehicles Battery policy to increase manufacturing of the EV batteries	Development of a support framework to attract one Electric Vehicles battery assembly operation	Implementation of 2 measures to support Electric Vehicles battery production
41		Localisation support measures for manufacturing of renewable energy components	Percentage increase in the manufacturing of the renewable energy components	10% increase in the manufacturing of renewable energy components
42		Decarbonisation Strategy to inform Industrial Policy, Trade policy and Policy position on Carbon Tax	Number of measures implemented under the Decarbonisation Strategy	2 measures implemented under the Decarbonisation Strategy
43	Improve the performance of the steel industry	Measures to improve the performance of the green steel industry	Implementation of 3 measures in the green steel industry	Implementation of 3 measures in the green steel industry

Programme 4: Sectors

Purpose: Design and implement policies, strategies and programmes to strengthen the ability of manufacturing and other sectors of the economy, to create decent jobs, promote inclusion and increase value addition and competitiveness, in both domestic and export markets.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
44	Improve the performance of the automotive industry	Measures implemented in the automotive industry masterplan	Number of measures implemented in the automotive industry masterplan	2 measures implemented in the automotive industry masterplan automotive industry approved
45	Improve the performance of the cement industry	Development and implementation measures to improve the performance of the cement industry	Number of measures to improve the performance of the cement industry	3 measures to improve the performance of the cement industry
46	Improve the performance of the sugar industry	Development and implementation measures to improve the performance of the sugar industry	Number of measures to improve the performance of the sugar industry	3 measures to improve the performance of the sugar industry

Programme 5: Regulation

Purpose: Develop and implement coherent, predictable and transparent regulatory solutions that facilitate easy access to redress and efficient regulation for economic citizens.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
47	Industrialisation, Transformation & Capable State	Reduce the harm of gambling to society through the amendment of the online gambling advertising regulations	Efficient regulation amendments to address online gambling advertising	1 Amended National Gambling Regulations gazetted
48		Create an enabling environment through targeted policy amendments to address cost of credit	Number of Regulations amended to address the cost of credit	1 Amended National Credit Regulations gazetted
49		Improving the ease of doing business in the economy by the dtic entities	Entities implementing the ease of doing business matrix	2% implementation of the ease of doing business matrix of 8 dtic entities
50		Illicit trade curtailed through efficient tracking regulations facilitating, strengthened tracing of illicit trade	Efficient tracking Regulations to curtail illicit trade	Tracking Regulations to curtail illicit trade
51		Ease of doing business enhanced for South African companies through amended Company Regulations	Company Regulations amended to improve ease of doing business	1 Amended Companies Regulations gazetted
52		Efficient regulation through the development of 3 Bills to address various constraints in sectors including online gambling, e-commerce in the liquor Act, addressing illicit trade	Number of Bills approved by Cabinet	3 Bills approved by Cabinet
53		Increase investment through the Omnibus Industrial Development and Investment Acceleration Bill, to accelerate industrial development and investment, creating an enabling environment, ease of doing business and reducing red tape	Omnibus Bill to accelerate Industrial development and Investment approved by Cabinet	1 Omnibus Bill approved by Cabinet

Programme 6: Incentives

Purpose: Stimulate and facilitate the development of sustainable and competitive enterprises, through the efficient provision of effective and accessible incentive measures that support national priorities.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
54	Industrialisation, Transformation & Capable State	Investment secured through industrial financial programmes	Rand value of investment secured through industrial financial programmes	R35bn of investment secured through industrial financial programmes
55		Disbursed funding to enterprises that comply with the latest B-BBEE Act	Rand value disbursed to enterprises that comply with the latest B-BBEE Act	R4bn disbursed to enterprises that comply with the latest B-BBEE Act
56		New jobs created by beneficiaries of disbursed funds.	Number of new jobs created by beneficiaries of disbursed funds	7 000 new jobs created by beneficiaries of disbursed funds
57		Jobs created through the digital economy programme (GBS)	Number of new jobs created through the digital economy programme (GBS)	5 000 new jobs created through the digital economy programme (GBS)
58		Export revenue of Global Business Services (GBS)	Rand value of export revenue generated through the Global Business Services	R5bn export revenue generated through the Global Business Services

IB Key Deliverables | Overview Performance Reporting

April 2025 to March 2026

APPROVALS

Insight into business performance over the next 2–5 years and their potential contribution to the economy

R4.2 billion total approved by the Incentives Branch

R31.2 billion projected investment over 2–5 years

DISBURSEMENTS

Current impact of industrial funding on the economy

R5.03 billion total disbursed

6 000+
Permanent new jobs

4 000+
Digital new jobs

R11.7 billion in service exports

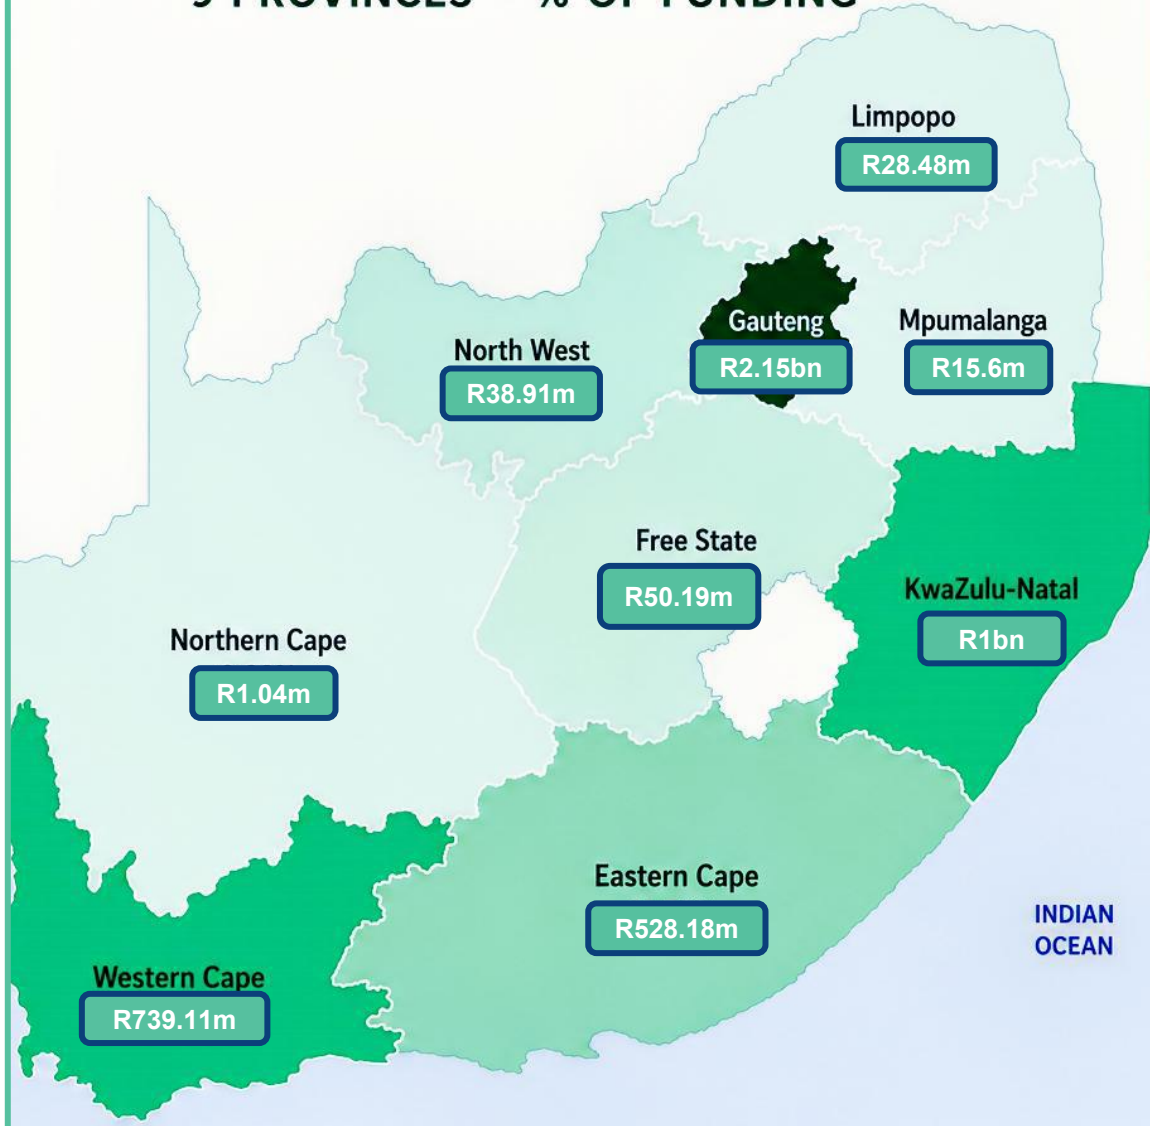

R1.4 billion support to enterprises outside five main metros

R688 million support to Black Industrialists & black-owned businesses

R612 million financial support to SMMEs, women & youth-owned businesses

SOUTH AFRICA

9 PROVINCES – % OF FUNDING

FUNDING SUMMARY

- Projects located in all nine provinces were funded in 2025/26.
- While projects located in Gauteng and KwaZulu-Natal accessed the most funding, about 57% and 58%, respectively, of the total disbursements in these provinces went to projects located in SEZs.
- Overall, R1.4 billion was disbursed to enterprises outside of the five main metros.
- Through marketing mechanisms and review studies, the Branch will attempt to improve the uptake of projects in those provinces and districts with low participation.
- However, to note that voluntary uptake of incentives are inherently difficult to budget for as uptake depends solely on the business.

PROJECTS LOCATED IN MULTIPLE PROVINCES	DISBURSEMENTS
Gauteng and KwaZulu-Natal	R6.97m
Gauteng and Western Cape	R76.24m
Gauteng, KwaZulu-Natal and Western Cape	R65.07

Programme 7: Exports

Purpose: To engender export-led growth of the South African economy. This is achieved through the increase of the volume of goods and services exports to the world and through increasing the proportion of companies that currently export from South Africa.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
59	Industrialisation, Transformation & Capable State	Increased South African total valued added exports to the world from R2 trillion to R3 trillion. Export initiatives will follow a value chain which includes investments, industrial policy interventions as well as trade agreements utilization	Rand value increase of South African manufactured exports to targeted markets in priority industrial policy sectors linked to trade agreement utilization	R146bn of South African manufactured exports to targeted markets in priority industrial policy sectors linked to trade agreement utilization
60		Increased South African total valued added exports to the world from R2 trillion to R3 trillion. Export initiatives will follow a value chain which includes investments, industrial policy interventions as well as AFCTA tariff utilization	Rand value increase of South African manufactured exports in priority industrial policy sectors linked to AfCFTA tariff utilization	R154bn of South African manufactured exports in priority industrial policy sectors linked to AfCFTA tariff utilization
61		Reduced firm level market concentration by ensuring that export opportunities are accessible to a broader range of businesses, particularly focusing on the empowerment of historically disadvantaged groups	Rand value increase of South African exports to targeted global markets by SMMEs funded by dtic export support measures	R700m of South African exports to targeted global markets by SMMEs funded by dtic export support measures
62		Reduced firm level market concentration by ensuring that export opportunities are accessible to a broader range of businesses, particularly focusing on the empowerment of historically disadvantaged groups	Rand value increase of South African exports to targeted African markets by Black owned entities funded by dtic export support measures	R70m of South African exports to targeted African markets by Black owned entities funded by dtic export support measures
63		Syndicated support package by DFI consortium for international project(s) tender and off take	Number of companies receiving dtic-DFI support packages	5 companies receiving dtic -DFI support packages
64		New jobs created in the economy	Number of new jobs created in the economy linked to exports activated by the Export Marketing and Investment Assistance (EMIA) scheme	1 275 jobs created in the economy linked to exports activated by the Export Marketing and Investment Assistance (EMIA) scheme
65		Increased Skills and Work Experience for the Economy	Number of entities capacitated on exporting skills	300 entities capacitated on exporting skills
66			Percentage of entities capacitated on exporting skills that are Women owned	25% of entities capacitated on exporting skills are Women owned
67			Percentage of entities capacitated on exporting skills that are Youth owned	8% of entities capacitated on exporting skills are Youth owned

Advancing Exports through EMIA funded Missions and Exhibitions

April 2025 to March 2026

- In order to assist companies to export, the department will continue to recruit and process applications for Export Marketing and Assistance (EMIA) Group scheme funding from companies situated in various provinces. The EMIA funding assists approved companies to participate in select export exhibitions and missions undertaken by the department. The department also plans to continue undertaking export awareness sessions, export training as well as export mentoring initiatives for companies from across provinces.
- During the 2025/26 FY the department funded companies through the EMIA Group scheme as follows:

Province	37	Number of Companies
Eastern Cape		29
Free State		6
Gauteng		233
KwaZulu-Natal		83
Limpopo		25
Mpumalanga		13
North West		17
Northern Cape		1
Western Cape		111
Total		518

Programme 8: Transformation and Competition

Purpose: Develop and roll out policy interventions that promote transformation and competition issues through effective economic planning, aligned investment and development policy tools.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
68	Industrialisation, Transformation & Capable State	Implementation of the Transformation Fund by 2029 to support majority-black owned enterprises and SMMEs in productive sectors	Number of majority black owned enterprises financed through the Transformation Fund	200 of majority black owned enterprises financed through the Transformation Fund
69			Rand value of Transformation Funds to majority black owned enterprises	R20bn of Transformation Funds contracted to majority black owned enterprises
70			Number of jobs through transformation fund	10 000 jobs through transformation fund
71		Implementation of B-BBEE to drive a meaningful inclusive economic transformation in priority sectors by 2029	Percentage (%) increase of ownership by black owned enterprises in priority sectors	20% increase of ownership by black owned enterprises in priority sectors
72			Reimagined architecture of the B-BBEE to drive economic transformation implemented	Revised B-BBEE regulations published for implementation
73		Implementation of Social Employment Fund (SEF part-time or temporary job opportunities) to create jobs	Rand value disbursed for the implementation of SEF	R1.5 billion disbursed for the implementation of SEF
74		Additional workers with shares in their companies	Number of additional workers with shares in their companies including but not limited to transformation and competition interventions	10 000 additional workers with shares in their companies
75		Unemployed youth trained under the Youth Employment Service (YES) by 2029	Number of unemployed youth trained under the Youth Employment Service (YES) by 2029	55 000 unemployed youth trained under the Youth Employment Service (YES) by 2029

Provincial Plans for 2026/27

1. **Social Employment Fund (SEF)**
2. **Transformation Fund**
3. **Merger and Acquisition**
4. **Youth Employment Services (YES)**

1. **Social Employment Fund:**

- The Social Employment Fund (SEF) currently has programme participants operating across all nine provinces of South Africa, reflecting the programme's continued commitment to national reach and inclusive implementation since its inception.
- This approach will be maintained during the 2026/27 financial year, during which the SEF aims to continue creating 50 000 temporary work opportunities.
- Particular emphasis is also placed on supporting strategic implementing partners operating within rural communities, to stimulate local economic activity and broaden socio-economic impact in these areas.
- In addition, the programme continues to prioritise employment opportunities for youth, women, and persons with disabilities.

2. **Transformation Fund:**

- The Transformation Fund will earmark a mandated portion of its resources exclusively for businesses majority support of entities owned by Designated Groups and entities based in township and rural areas. This ensure that there is provincial spread and support for marginalised areas.
- This mandate will be followed for the disbursement of the Transformation Fund during the 2026/27 financial year and beyond.

Provincial Plans for 2026/27

1. Social Employment Fund (SEF)
2. Transformation Fund
3. Merger and Acquisition
4. Youth Employment Services (YES)

3. Merger and Acquisition:

- Section 12 A(3) of Competition Act highlights Public Interest conditions during merger or acquisition of companies: The Public Interest conditions include, amongst others: considering a particular industry or region; Support of SMMEs companies owned by HDP (Historically Disadvantaged People); Employment creation, and Supplier development.
- Example: Vodacom / Maziv merger: to expand network coverage, particularly in underserved low-income areas, provinces and rural areas: these include enterprise development, free access to 1Gigabit per second fibre lines for public libraries and clinics, an increased in the number of police stations, mainly located in rural provinces.

4. Youth Employment Services (YES):

- YES programme aims to give employment opportunities for youth from disadvantaged areas taking into account gender as well.
- Youth participants are spread across the provinces and will continue to follow the approach for 2026/27 to ensure that youth from disadvantaged background from across the country are being given the opportunity.

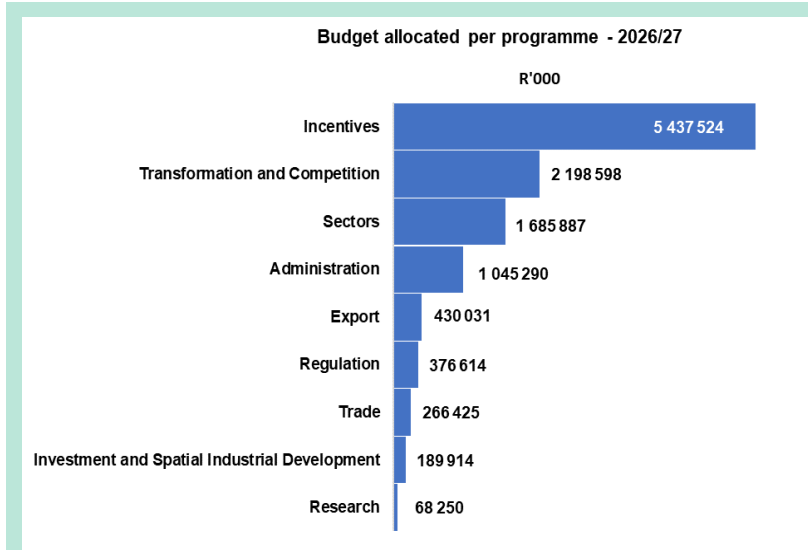

Programme 9: Research

Purpose: Undertake economic research; contribute to development of economic strategies, and guide economic policy narratives.

Indicator Number 2026/27	Outcome	Output	Output Indicators 2026/27	2026/27
76	Industrialisation	Coordination of the ESIEID Cluster Performance on GAIN and Jobs strategies	Number ESIEID Cluster reports produced	4 ESIEID Cluster reports produced
77		Manufacturing sector pulse reports	Number of quarterly manufacturing sector pulse reports produced	4 quarterly manufacturing sector pulse reports produced
78		Trade Reports including dashboards of critical trade information	Number of Trade Reports including dashboards of critical trade information produced	4 quarterly trade Reports including dashboards produced
79		Economic outlook reports tracking GDP performance	Number of Economic Outlook reports tracking GDP performance produced	1 Economic Outlook Report produced
80		Evaluation reports of the dtic interventions	Number of evaluation reports of the dtic interventions produced	1 evaluation report of the dtic intervention produced
81		Research Agenda of the dtic developed	Number of the dtic research agenda developed	1 dtic research agenda developed

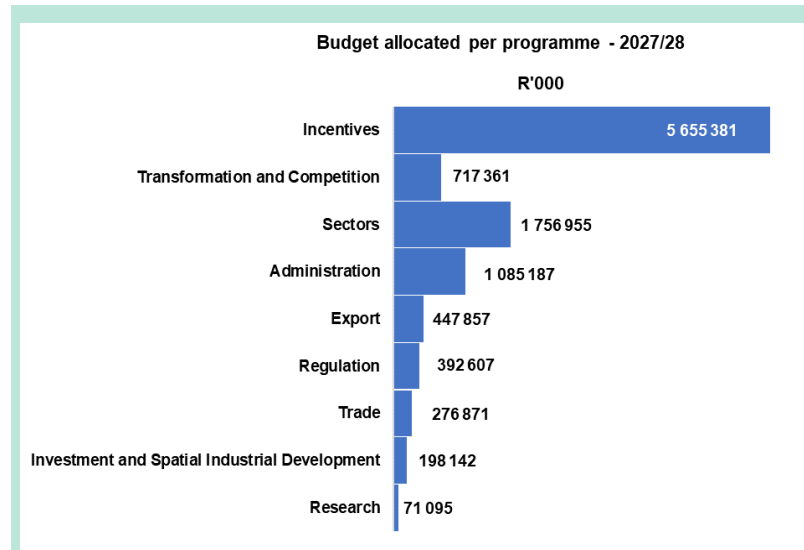

Budget – R33.2 billion has been appropriated over the medium term

Financial Year 2026/27

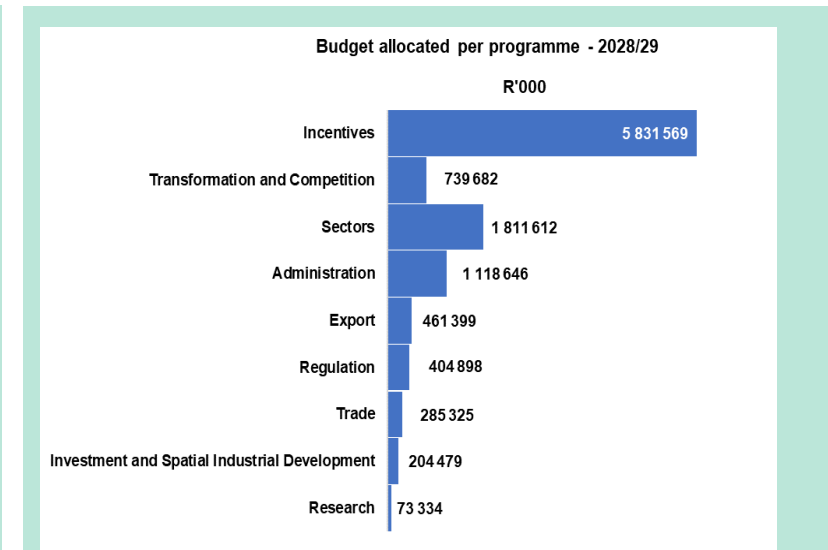

R11.69 billion

Financial Year 2027/28

R10.6 billion

Financial Year 2028/29

R10.9 billion

**Administration budget includes accommodation expenditure of just over R350 million per year.

1. 2026 MTEF continued to be prepared under **constraint fiscal environment**
2. Funding pressures to be considered through **reprioritisation within department's existing baseline.**
3. **Marginal decrease (i.e. -0.6%)** of the department's total expenditure from R11.1 billion in 2025/26 to R10.9 billion in 2028/29.

Negative Growth Rate

 **-0.6%**

Marginal decrease of the department's total expenditure from R11.1 billion in 2025/26 to R10.9 billion in 2028/29.

Programme with significant decrease

-27.8%

Significant decrease in allocations to the *Transformation and Competition* programme over the medium term due to a once-off allocation to the programme for the Social Employment Fund.

Summary of budget allocated to the APP performance targets in the 2026-27 fiscal year

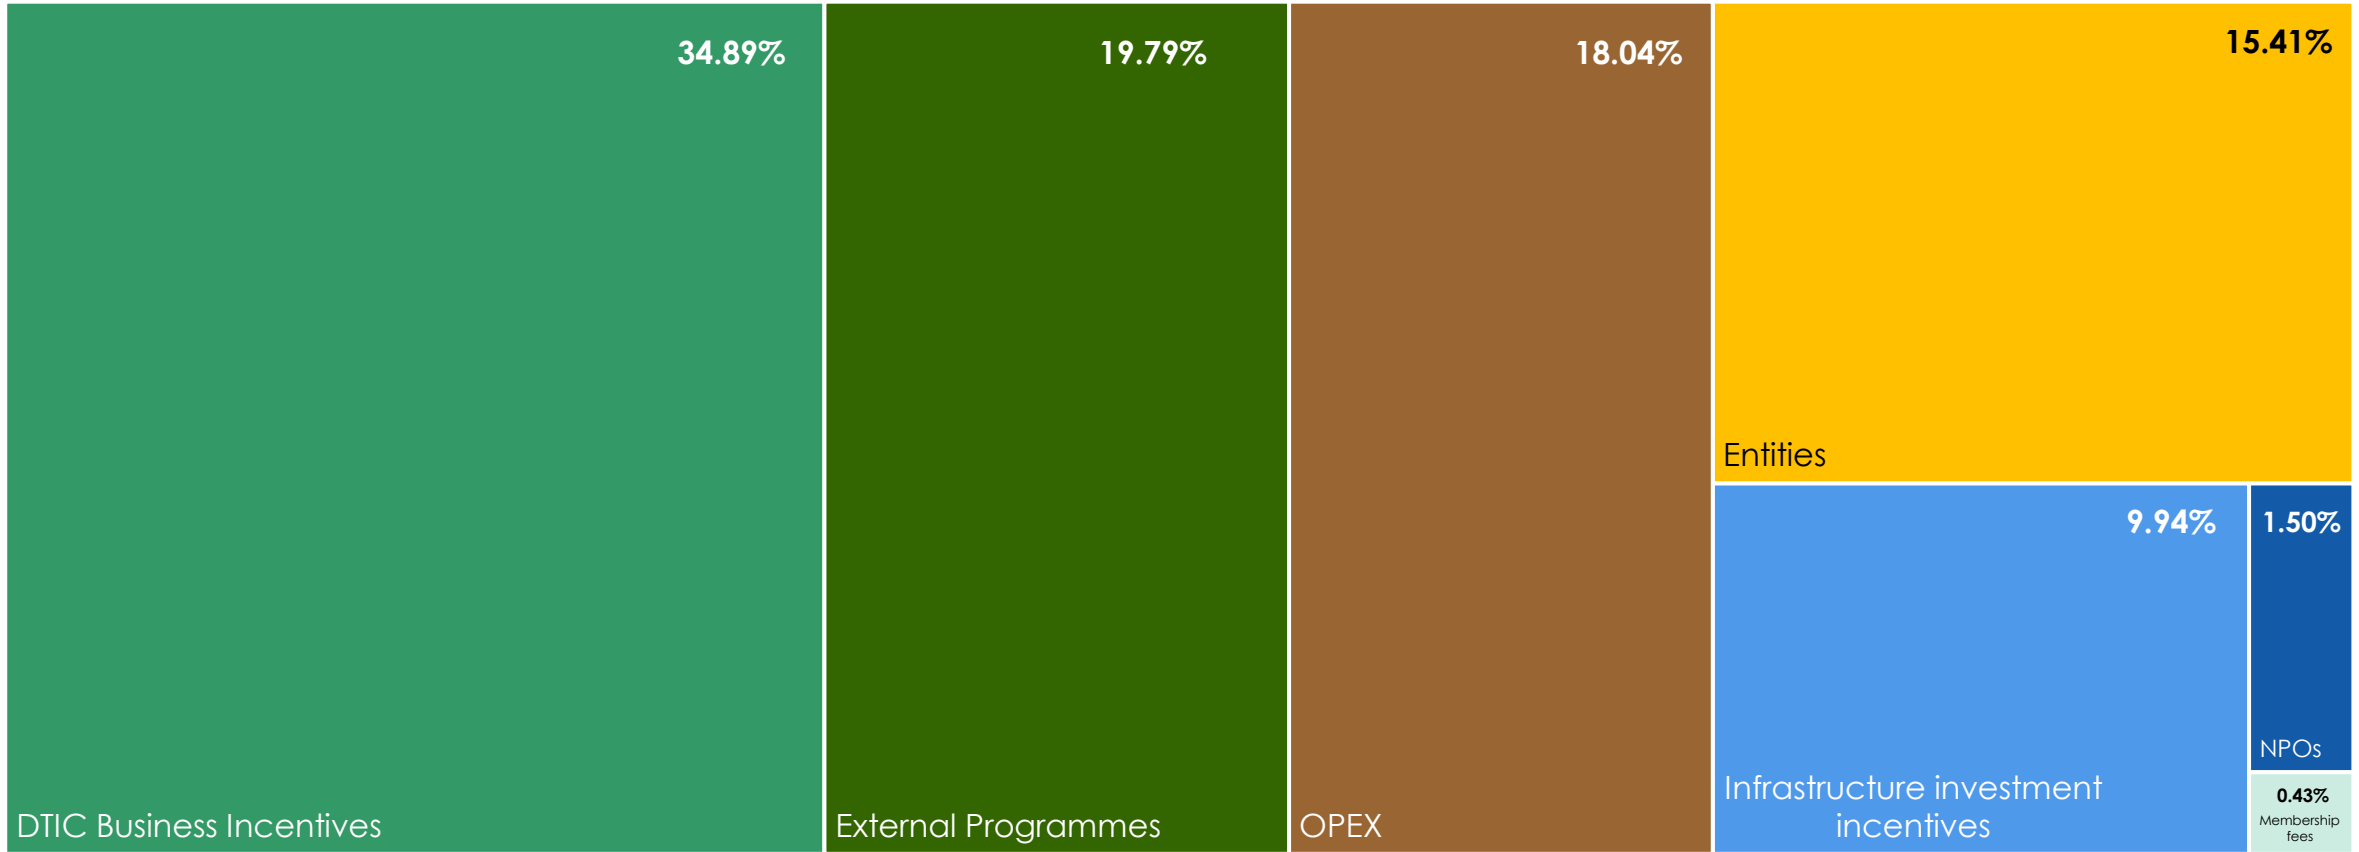

Programme	MTDP Strategic pillars supported	Link to APP indicators	Estimated Expenditure 2026/27 R'000
Incentives	Driving inclusive economic growth, job creation, and transformation by strengthening industrial capacity and expanding strategic sectors	54-58	5 437 524
Transformation and Competition	Accelerating economic transformation and inclusive growth through black economic empowerment, job creation, and youth training	68-75	2 198 598
Sectors	Driving inclusive economic growth, re-industrialization, and job creation through targeted localization, decarbonization, and strategic sector development	34-46	1 685 887
Export	Goal of achieving rapid, inclusive, and sustainable economic growth through export-led industrialization, regional integration via AfCFTA, and structural transformation	59-67	430 031
Regulation	Strengthening the regulatory environment, enhancing ease of doing business, and promoting economic transformation to drive inclusive growth and job creation in South Africa	47-53	376 614

Summary of budget allocated to the APP performance targets in the 2026-27 fiscal year ~cont.

Programme	MTDP Strategic pillars supported	Link to APP indicators	Estimated Expenditure 2026/27 R'000
Trade	Driving inclusive growth, accelerating industrialization, and expanding export market access through deepened regional integration and strategic trade agreements	11-26	266 425
Investment and Spatial Industrial Development	Accelerating inclusive economic growth and reducing unemployment by driving industrialisation, regional industrial development, and foreign direct investment	27-33	189 914
Administration	Driving inclusive economic growth, reducing poverty, and building a capable, ethical, and developmental state through the transformation of public procurement and improved operational efficiency	1-10	1 045 290
Research	Accelerate inclusive economic growth, job creation, and industrial development within South Africa's ESIEID Cluster by providing evidence-based monitoring and evaluation	76-81	68 250

Current Year (2026-27) budget distribution by categories

■ DTIC Business Incentives ■ Infrastructure investment incentives ■ Entities ■ External Programmes ■ NPOs ■ OPEX ■ Membership fees

01 | In the 2026/27 financial year, the incentives programme and its industrial financing partners (Industrial Development Corporation and the National Empowerment Fund) will provide industrial financing in the form of grants and loans.

03 | 15.41% of the 2026/27 budget is allocated towards the department's entities (i.e. Standards Institutions, Regulators and 1 Development Finance Institution) for the execution of their mandates.

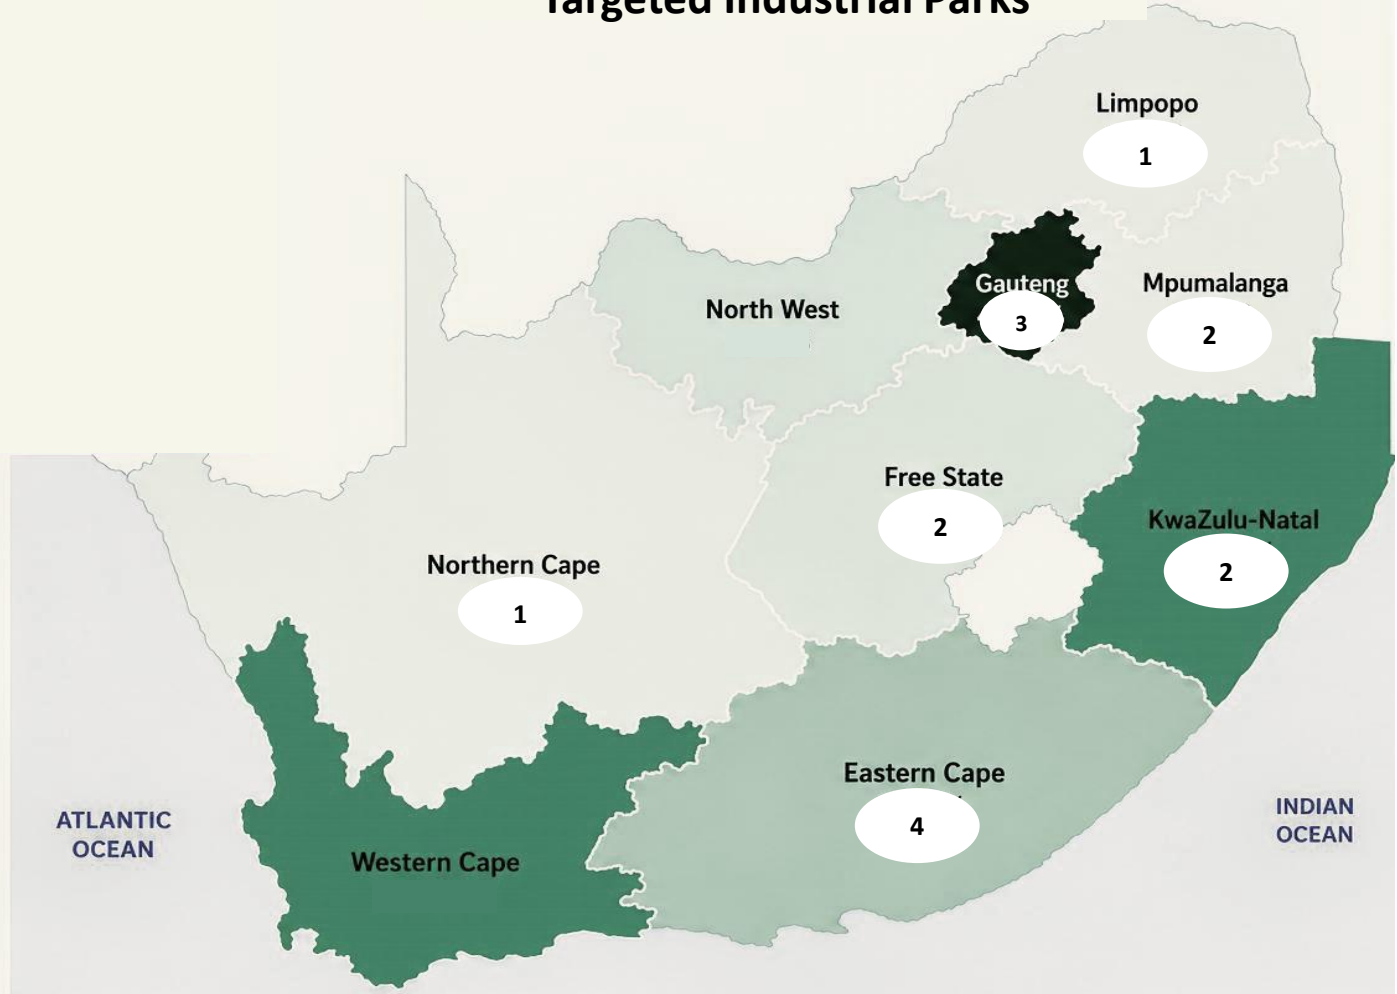

02 | Disbursements, from incentives to projects will focus on expanding the reach of industrial finance to SMMEs, women and youth-owned enterprises and to under-supported districts. This will include industrial financing through the Special Economic Zone and Industrial Park incentives to support projects outside of the 5 main metros that require Infrastructure development

04 | 19.79% of the 2026/27 budget for external programmes, includes a once-off allocation for the Social Employment Fund.

R50.3 million financial support in 2026-27 for the revitalisation of targeted industrial parks

SOUTH AFRICA

Targeted Industrial Parks

Industrial Park	Province (Town/City)
1. Ezakheni IP	Kwazulu-Natal (Mandeni)
2. Madadeni IP	Kwazulu-Natal (Newcastle)
3. Laborie IP (Ekurhuleni)	Gauteng (Ekurhuleni)
4. Ga-Rankuwa IP	Gauteng (Ga-Rankuwa)
5. Babelegi IP	Gauteng (Hammanskraal)
6. Perseverance IP	Eastern Cape (Motherwell)
7. Markman IP	Eastern Cape (Gqeberha)
8. Elundini Agro-IP	Eastern Cape (Maclear/Elundini)
9. Komani IP	Eastern Cape (Komani)
10. Collins Chabane IP	Limpopo (Greater Giyani)
11. Phuthaditjhaba IP	Free State (Qwaqwa)
12. Botshabelo IP	Free State (Botshabelo)
13. Kathu IP	Northern Cape (Gamagara)
14. Ekandustria IP	Mpumalanga (Bronkhorstspuit)
15. KaBokweni IP	Mpumalanga (Kabokweni)

Funding Cap: Up to R50 million per Park. As a result, budget augmentation is required.
