REQUEST FOR PROPOSALS:

The Department of Trade, Industry and Competition (**the dtic**) invites interested Service Providers to submit proposals to maintain, support and licence the department's Enterprise Content Management Environment (Documentum) for a period of five years.

NOTE: Should a vendor have reason to believe that the specification is not open to promote competition or that it is written for a particular entity; the vendor shall notify the Bid Office of **the dtic** within ten (10) calendar days after publication of the bid.

1 PURPOSE

- 1.1 The purpose of this specification is to outline the requirements for the appointment of a service provider to maintain, support and licence the department's Enterprise Content Management Environment (Documentum) for a period of five (5) years.

2 BACKGROUND

- 2.1 **the dtic** is a document-centric and information-driven organisation therefore, the effective storage, management and dissemination of electronic and paper information is vital to the success and effectiveness of **the dtic**. In 2004 the department implemented the Enterprise Content Management Solution (ECM), Documentum, with the following objectives in mind:

- To transform from paper-based document management operations to electronic content management operations;
- To enable easier access to information, as well as support collaboration and knowledge sharing; and
- To automate existing processes of the department.

- 2.2 Enterprise Content Management solutions such as Documentum are designed to help organisations efficiently manage, organize, and leverage their unstructured content - such as documents, images, emails, and videos - while ensuring compliance, security, and accessibility. The purpose of ECM solutions can be summarised as follows:

2.2.1 Centralized Content Management

- Store all documents and content in a centralised repository for easy access, retrieval, and collaboration.
- Prevent duplication and version conflicts through robust version control features.

2.2.2 Improved Productivity

- Streamline workflows with tools for document creation, approval, and collaboration.

- Automate routine processes, such as document approvals and record archiving.
- Enable quick search and retrieval of content using metadata and indexing.

2.2.3 Compliance and Governance

- Ensure adherence to legal, regulatory, and industry-specific compliance standards.
- Maintain audit trails and enforce policies for retention, deletion, and access control.

2.2.4 Enhanced Security

- Restrict access to sensitive content with role-based permissions.
- Protect content through encryption, secure storage, and other security measures.

2.2.5 Content Lifecycle Management

- Manage the entire lifecycle of a document, from creation to archival or destruction.
- Enable automatic classification and organization of content.

2.2.6 Integration and Scalability

- Seamlessly integrate with other enterprise applications like ERP, CRM, and collaboration tools.
- Scale to meet the growing needs of an organization as content volume increases.

2.2.7 Collaboration and Mobility

- Allow users to collaborate on documents in real time, regardless of location.
- Provide mobile and remote access to content while maintaining security.

2.3 Documentum is currently used by an average of 574 users per month located in all the dtic offices, and this is growing as the benefit of enterprise content management as well as knowledge and information management is realised. The Documentum repository currently contains 6,176,447 documents. The total disk space occupied is 9.07 TB.

2.4 For the dtic to continue with the utilisation of this environment and stay in pace with the technological enhancements it is imperative to continue with the yearly maintenance and support as well as have specific configuration done as required.

2.5 The current contract for maintenance and support of the ECM environment ends on 23 July 2026. A new service provider must be appointed to render the maintenance and support to the said environment.

3 SCOPE OF WORK

3.1 The scope of work required is:
